EXPERIENCE

PRISM Intern
Samsung R&D Institute, Bangalore.
📅 January, 2024 – Present
Project Title: Prompt Design for creative descriptive images.
Project Idea: Designing prompt for generating detailed images for effectively communicating company's offers.

Data Science Intern
CodeClause, Remote.
📅 August, 2023 – September, 2023
Project Title: Designing predictive models for real-life applications.
Project Idea: Developing ML models for problems like Churn Prediction, Market Basket Analysis, and Price Recommendation.

Data Science Trainee
CapaBl- The Elite Techno Group, Remote.
📅 July, 2023 – August, 2023
Project Title: Developing Taxi Trip Duration Prediction Model.
Project Idea: Understanding concept of Data Science and Machine Learning and implementing to design a prediction model.

SKILLS

Programming Languages: Python, C/C++, JAVA
Web Development: HTML, CSS, JS
Database: MySQL

ACHIEVEMENTS

🏅 **INSPIRE Internship Camp Awardee**
Awarded as the 8th best senior school student in Experimental Science

🏅 **The JC Bose Award**
Awarded as the best science student of batch 2021, Class 12, DAV Meerut.

EDUCATION

Bachelor of Technology, Computer Science Engineering
Vellore Institute of Technology, Chennai
📅 08/2021 - Present   CGPA: 9.39

Senior Secondary, Class 12
CJ DAV Centenary Public School, Meerut
📅 03/2020 - 03/2021   Percentage: 98.20%

Higher Secondary, Class 10
Vanasthali Public School, Baraut
📅 03/2018 - 03/2019   Percentage: 97.20%

PROJECTS

My Portfolio Website
📅 September, 2023
Developed a static website using HTML, CSS and JS as my portfolio.

Machine Learning Projects
2021 - Present
Heart Disease Prediction Model
Churn Prediction Model
Price Recommendation Model

Tangent based Cryptography Algorithm – DeSH Encryption
📅 January, 2024 – April, 2024

CERTIFICATIONS

🏅 AWS Cloud Practitioner – AWS Cloud
🏅 Microsoft Azure Administrator Associate
🏅 Google Cloud Computing - NPTEL
🏅 Python Programming
